

VISA ISSUES

Visa application procedure should be carried out by the student as it is a personal application.

1. Do we have to show any proof for accommodation? Or a hotel reservation for visa application?

To show any proof for accommodation or a hotel reservation will be an advantage for your visa application. The applications may vary depending on the country.

2. How do I apply for visa?

Check the required documents from the official website of the consulate of the country you'll be applying. Required documents can change for each country. Visa applications may take around 1-4 months. We cannot interfere with your visa application and cannot contact with consulate on your behalf.

3. How do I obtain a Schengen visa?

Before leaving your country you should apply for a Schengen visa at the consulate of the Schengen country you plan to visit. Please make sure to check the rules and requirements for your host country.

4. If I have a Schengen visa, can I travel to other countries without a residence permit? Where can I find the information?

Please consult to the consulate of the country you'll be travelling.
