History and Memory

2nd semester

Sustainable Development

Cities and Global Change

Environmental Humanities

# Globalization Program | Sp. Tracks

## Economics, Management and Digital Technologies applied to Cultural Heritage

to introduce students to concepts such as Natural and Cultural Heritage, both tangible and intangible; to the challenges posed by their management, preservation and development, in relation to development policies and/or citizenship issues

## Science and Society

The aim is to explore critically the role and impact of science, technology and innovation within society, and conversely how society, politics and culture affect scientific research and innovation.

## History and Memory

Opportunities to develop an up-to-date understanding of history, historical research and consciousness, collective and individual memory and forgetting, with their ethical and political implications, in their micro and macro dimensions.

# Globalization Program | Sp. Tracks

## Environmental Management and Sustainable Development

The aim of this specialization track is to develop awareness of Sustainability concepts and issues, applied to the Environment and the Economy, learning about sustainable practices and management, adopting ethical and cultural approaches

## Cities and Global Change

Focus on cities as places where human activities are concentrated, as the chief causes of, and solutions to, anthropogenic global change, providing students with a critical view of the nature of cities and social, economic, political, cultural global change.

## Environmental Humanities

Conjunctions, but it also seeks to integrate debates thus far largely shaped by different disciplinary contexts. Environmental Humanities can help to organize humanistic research, to open up new forms of interdisciplinarity, both within the humanities and in collaboration with the social and natural sciences, and to shape public debate and policies on environmental issues.

# Globalization Program

## 2nd semester 2024-25: Specialization Tracks
